

## **FUND RAISING FOR SIRI**

A girl named Siri from first year EEE Branch got into an auto accident on 11<sup>th</sup> Novemeber,2024 while returning home and she went into coma and also suffered severe brain injuries and she was admitted to A.J. Hospital and required immediate medical intervention.

Siri was from a financially underprivileged background with her father, Mr. Mahendra also working as an auto driver. The estimated cost for her treatment was approximately INR 10 lakhs. Her family was unable to bear the expenses alone, and they seeked urgent support from our team to be an aid in her recovery.

We organized a fund-raising campaign for raising the funds required for her recovery expenses by designing the poster and circulating it within the students of the college and to other individuals and also spread the awareness about this incident through social media in the form of video posts seeking help and asking the individuals to contribute for this noble cause further we conducted a class-to-class collection of funds as part of this campaign.

Finally, to extend our support during this challenging time to her family, we donated an amount of Rupees 2,00,000 to her family.
